Important information

In this prospectus, the “**Issuer**” means Landshypotek Bank Aktiebolag (publ). The “**Group**” means the Issuer with all its subsidiaries from time to time (each a “**Group Company**”). The “**Joint Bookrunners**” means Nordea Bank Abp and Swedbank AB (publ).

Words and expressions defined in the terms and conditions beginning on page 23 (the “**Terms and Conditions**”) have the same meanings when used in this prospectus (the “**Prospectus**”), unless expressly stated otherwise follow from the context.

The Issuer has issued a total of 200 Additional Tier 1 Capital notes (the “**Notes**”) in the Total Nominal Amount of SEK 400,000,000 on 16 February 2022 (the “**Issue Date**”). This Prospectus has been prepared for the admission to trading of the Notes on Nasdaq Stockholm. This Prospectus does not contain and does not constitute an offer or a solicitation to buy or sell Notes. This Prospectus is governed by Swedish law. The courts of Sweden have exclusive jurisdiction to settle any dispute arising out of or in connection herewith.

This Prospectus has been approved and registered by the Swedish Financial Supervisory Authority (*Finansinspektionen*) (the “**Swedish FSA**”) pursuant to the provisions of Article 20 of Regulation (EU) 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC (the “**Prospectus Regulation**”).

Solely for the purposes of the manufacturers’ (as used herein, “**Manufacturers**” refers to Nordea Bank Abp and Swedbank AB (publ) in their capacity as joint bookrunners) product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients, each as defined in Directive 2014/65/EU as amended (“**MIFID II**”), and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**Distributor**”) should take into consideration the Manufacturers’ target market assessment. However, a Distributor subject to MIFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the Manufacturers’ target market assessment) and determining appropriate distribution channels.

The Notes are not intended to be, and should thus not be, offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended). Consequently, no key information document as set out in Regulation (EU) No. 1286/2014 (as amended, the “**PRIPs Regulation**”) has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

This Prospectus may not be distributed in any jurisdiction where such distribution would require any additional prospectus, registration or measures other than those required under Swedish law, or otherwise would conflict with regulations in such jurisdiction. Persons into whose possession this Prospectus may come are required to inform themselves about, and comply with such restrictions. Any failure to comply with such restrictions may result in a violation of applicable securities regulations. The Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons. The Notes have not been, and will not be, registered under the United States Securities Act of 1933 or the securities laws of any state or other jurisdiction outside Sweden.

Each potential investor in the Notes must in light of its own circumstances determine the suitability of the investment. In particular, each potential investor should conduct their own investigation and analysis of the Issuer and the data set forth in this Prospectus and investors are urged to take steps to ensure that they understand the transaction and have made an independent assessment of the appropriateness of the transaction in light of their own objectives and circumstances before entering into any transaction (including the possible risks and benefits of entering into such transaction). RISK FACTORS

In this section, material risk factors are illustrated and discussed, including economic and market risks, risks relating to the Issuer's business and legal and regulatory risks, as well as risks related to the Notes generally and risks related to the market generally. The Issuer's assessment of the materiality of each risk factor is based on the probability of their occurrence and the expected magnitude of their negative impact. The description of the risk factors below is based on information available and estimates made on the date of this Prospectus. Prospective investors should also read the detailed information set out elsewhere in this Prospectus, including the documents incorporated by reference, and reach their own views prior to making any investment decision.

The risk factors are presented in categories where the most material risk factors in a category are presented first under that category. Subsequent risk factors in the same category are not ranked in order of materiality or probability of occurrence. Where a risk factor may be categorised in more than one category, such risk factor appears only once and in the most relevant category for such risk factor.

Risks relating to the Issuer

Economic and market risks

Risks relating to the Swedish mortgage market

Since 2017, the Issuer's operations include lending to the Swedish residential mortgage market. During 2020, and through a particularly intense phase of the COVID-19 pandemic, housing prices in Sweden rose by several per cent. However, there is a risk that housing prices may fall back as interest rates are expected to rise in the future, although it is unclear how long it will be before interest rates start to rise. For example, with regard to new homes, there has been an increase of newly built multi-family dwellings during the last few years, which is why that particular market segment could be subject to less demand in upcoming years, which could have a negative impact on the housing market. In addition, in recent years, many housing developers have experienced difficulties with selling parts of their newly produced units. In some local markets, signals indicate that the supply of newly produced housing has been greater than the actual demand (i.e. willingness to pay). Examples of such signals include longer advertisement times, fewer bidders per property, falling bid premiums and a larger proportion of housing with lowered prices. If the Swedish housing market were to decline with falling house prices, and the demand for new loans, as a consequence, were to significantly decrease, this would negatively affect the demand for the Issuer's offerings of loans in the Swedish residential mortgage market, and thereby adversely affecting the Issuer's business, results of operations and margins.

Moreover, house prices may also be negatively affected by, for example, changes in regulations affecting the Swedish mortgage market directly or indirectly or by a quick rise in interest rates or unemployment levels. Legal requirements such as further increased amortisation requirements or stricter caps on loan-to-value levels, may have an adverse effect on house prices and contribute to a reduction in lending growth. Furthermore, potential tightening of monetary policy is expected to have a negative impact on house price development. More restrictive regulations or upcoming tightening of monetary policies that hold back house price development would further accentuate the risk of decreased demand for new loans in general, including loans that could be originated by the Issuer. The degree to which a decline in Swedish housing market may affect the Issuer is uncertain and presents a highly significant risk to the Issuer's credit quality, financial condition and results of operations.

Risks relating to the Swedish agriculture and forestry market

The Issuer's core business is to offer mortgage loans to customers in the farming and forestry sector and to customers living on farms, which as of 31 December 2020 represented SEK 71,500 million of the Issuer's credit portfolio (approximately 23 per cent of its total lending). The Issuer and its borrowers are therefore impacted by the trends and conditions in the agriculture and forestry sectors. Farmers have faced challenges due to the political climate globally, such as the import restrictions on agricultural products introduced in 2014 by the Russian Federation. Furthermore, international rules and agreements regarding agricultural policy – such as the Common Agricultural Policy (the CAP), World Trade Organization (WTO) etc. – could have an impact on the credit quality of the Issuer's customers in a long-term horizon, due to a change to level of state granted supports to that particular business or land type. The Issuer and its borrowers are further exposed to risks due to the global climate change and political changes and decisions affecting the agriculture and forestry markets, including (but not limited to) restrictions on pesticides and plant breeding.

Furthermore, in accordance with changes in market prices, the prices for agriculture, forestry assets and input goods, including higher energy prices and freight costs, will vary over time. For example, there is a risk that storms

and extensive bark beetle infestations causes damages to the forests and in turn an increase of the supply for forest raw materials, which in combination with weaker demand is likely to negatively affect the market balance. Further demand has risen for several input goods following the easing of pandemic restrictions and there is a risk that the previous lower production rate, together with logistical problems, causes lower availability of several input goods and rising prices. In particular, prices have risen for energy, fertilisers and feed, which has mainly affected animal production which will have a negative effect on the borrowers' asset and therefore ultimately affect the Issuer. If the market value for a forest produced commodity, such as pulpwood, is materially reduced there is a risk that the forestry asset which the commodity derives from similarly will decrease in value, which will have a negative effect on the borrowers' asset and therefore ultimately affect the Issuer. Political uncertainty globally, volatile agriculture policy, climate change challenges, new regulations and fluctuations in market prices for forestry and agricultural commodities and input goods may adversely affect the Swedish agriculture and forestry market and in turn the Issuer's business and results of operations.

Risks relating to disruptions in the global credit markets and economy, including the COVID-19 pandemic

As a financial institution and lender, the Issuer is subject to risks related to the performance of the global, and in particular the Nordic, credit markets and economy, since financial institutions, both in Sweden and globally, are dependent on the global credit market and economy being strong, so that people are willing and able to take up loans. Any disruption or downturn in the global credit markets and economy would typically thus affect the Issuer, both in respect of financial performance and growth possibilities. Any downturn in the economy together with an increase in unemployment levels would contribute to slower growth in household disposable income and higher savings and thereby accentuate these risks. As a result, the Issuer may also be affected by public health epidemics or outbreaks of diseases that may negatively affect the global or domestic economy, such as the recent outbreak of SARS-CoV-2 (the coronavirus that is the cause of COVID-19), and acts of war.

The COVID-19 pandemic and measures taken by governments across the globe to limit the spread of the virus has resulted in substantial movements in the financial markets in the form of, e.g., falling interest rates, rising credit spreads and volatile stock prices, and lead to uncertainty about the long-term development of the global economy. The Issuer may be affected by the COVID-19 pandemic through the direct and indirect impact of the pandemic on, among others, its customers and other counterparties both in Sweden and elsewhere, as a result of, for example, public health measures, such as business closings and restrictions on travel and gatherings. The COVID-19 pandemic could also have a longer term impact on the state of the domestic Swedish economy, on which the Issuer is largely dependent, by creating significant economic turbulence and falling growth. The continued spread or new outbreaks of, or mutations to, SARS-CoV-2, as well as an inability to limit the pandemic and its effects, including those on the global economy, are factors that are highly uncertain and difficult to predict. Moreover, there can be no assurances that the adverse impact of the COVID-19 pandemic will not lead to a tightening of liquidity conditions or funding uncertainty in any future development of the pandemic. Any of the foregoing, and any future adverse conditions related to the COVID-19 pandemic not yet known, could have a material adverse effect on the Issuer's business, financial condition and results of operations. There is also a risk that the Issuer's ability to raise debt in a similar manner, and at a similar cost, to the funding raised in the past, and its ability to raise debt in the international capital markets could be affected.

On 24 February 2022, Russia launched a military assault on Ukraine. The assault started after a prolonged military build-up and the Russian recognition of the self-proclaimed Donetsk People's Republic and the Luhansk People's Republic in the days prior to the military assault. The situation in Eastern Europe have led to significant volatility in the global credit markets and on the global economy. The degree to which macro-economic and political factors, such as the situation in Ukraine, may affect the Issuer is uncertain and presents a significant risk to its access to financing and funding costs.

If the Issuer's funding costs substantially increases, including due to changes in interest rates, exchange rates and returns from equity, property and other investments, this would have a negative impact on the financial performance of the Issuer.

Risks relating to the Issuer's collateral

The Issuer's loans are secured by mortgage certificates (*pantbrev*) in properties located in Sweden as collateral. Consequently, the Issuer's credit risk, and the value of such collateral, is related to the performance of the real estate and agricultural and forestry market in Sweden. There can be no guarantees regarding the future development of the value of the collateral. Should the prices of real property and the agricultural and forestry market substantially decline, for example due to circumstances explained under this category "*Economic and market risks*", this would affect the Issuer, as the value of the collateral would decline. Furthermore, when

collateral is enforced, a court order may be needed to establish the borrower's obligation to pay and to enable a sale by execution measures. The Issuer's ability to enforce the collateral without the consent of the borrower is thus dependent on the above-mentioned decisions from a court and the execution measures and on other relevant circumstances in the mortgage market and in the demand for the relevant real property. If the Issuer's credit losses increase due to the fact that principal and interest under defaulting loans cannot be recovered where the relevant collateral has decreased in value, this would have a negative impact on the Issuer's result of operations.

Systemic risk

Although the Swedish mortgage market is currently dominated by a few institutions, consisting of banks and bank-owned mortgage companies, new competitors have appeared in recent times. Due to increased competition amongst lenders, the Issuer's business would face declining earnings should the Issuer, for example, be required to reduce interest levels in order to keep market shares, thereby adversely affecting its margins. Furthermore, due to the high level of interdependence between financial institutions, the Issuer is also subject to the risk of deterioration of the actual or perceived commercial and financial soundness of other financial institutions. Any default or financial difficulties of one financial institution is likely to have negative consequences for other financial institutions and would lead to liquidity problems, losses, defaults or worsening of the general economic climate in the local markets in which the Issuer operates. This means that the Issuer is subject to risks related to the banking sector as such, and risks related to other financial institutions.

Risks relating to the Issuer's business and industry

Credit risk

Since the Issuer conducts lending operations, credit risk is central to the Issuer's business model and is considered to be the dominant risk in its operations. Credit risk arises both in the Issuer's lending operation and its treasury operations.

Credit risk in the Issuer's operations arises if one or more borrowers do not fulfil their payment obligations towards the Issuer, and is thus associated with borrowers' creditworthiness, their ability to pay under the mortgage loan and the value of the mortgaged properties. Credit risk also arises in conjunction with loans and loan commitments as well as in connection with value changes in pledged assets entailing that these no longer cover the Issuer's claim (i.e. within the ordinary course of the Issuer's business). The Issuer's credit risk may increase as a result of the COVID-19 pandemic as some of the Issuer's customers, in particular those reliant on foreign labour, may be negatively affected by restrictive measures carried out from time to time in response to the pandemic, such as travel restrictions or entry bans. Credit risk also includes concentration risk, being risks related to large (connected) individual exposures and significant exposures to groups of counterparties whose likelihood of default is driven by common underlying factors, e.g. sector, economy, geographical location or instrument type. Should any such credit risk materialise, there is a risk of an increase in the number of loans not being paid. It would also require the Issuer to take measures to collect such defaulted loans, which might be costly and unsuccessful.

Counterparty risk arises if the value of the instrument changes resulting from variations, for example, interest rates or currency exchange rates, which means the Issuer recognises a receivable against the counterparty. In addition, counterparty risk is the risk that the Issuer's financial counterparties cannot meet their commitments under financial commitments such as contracted repos and derivatives.

Risks arising from the credit quality of borrowers and counterparties and the recoverability of loans and amounts due from counterparties in derivative transactions are inherent in the Issuer's businesses. Adverse changes in the credit quality of the Issuer's borrowers and counterparties or a general deterioration in the Swedish, European or global economic conditions, or arising from systemic risks in the financial systems, would affect the recoverability and value of the Issuer's assets and require an increase in the Issuer's provision for bad and doubtful loans and other provisions. The degree to which credit risks may affect the Issuer is uncertain and presents a highly significant risk to the recoverability and value of the Issuer's assets.

Liquidity risk

Liquidity risk is the risk that the Issuer will not be able to meet its payment obligations when they fall due at all or without the related cost increasing significantly. As part of its funding, the Issuer accepts deposits from the general public which are repayable on demand. Should a majority of the deposits be withdrawn simultaneously or during a short period of time, this would adversely affect the Issuer's short-term liquidity as it will be required to repay a significant amount on demand. If the Issuer's inability to meet its payment obligations when they fall due is not temporary it would risk leading to a lack of liquidity in the longer term. The Issuer is subject to liquidity requirements in its capacity as a credit institution supervised by the Swedish FSA, including a statutory

requirement to maintain sufficient liquidity to enable it to discharge its obligations as they fall due. Serious or systematic deviations from such regulations may lead to the Swedish FSA determining that the Issuer's business does not satisfy the statutory soundness requirement for credit institutions and could result in the Swedish FSA imposing sanctions against the Issuer. The inability of the Issuer to anticipate and provide for unforeseen decreases or changes in funding sources could have consequences on the Issuer's ability to meet its payment obligations when they fall due and thus result in an investor not being paid in a timely manner. The degree to which liquidity risks may affect the Issuer is uncertain and presents a highly significant risk to the Issuer's ability to meet its payment obligations as they fall due.

Funding risk

The Issuer is dependent upon the debt capital markets as a source of debt capital. As of 31 December 2020, as part of the Issuer's funding, the Issuer had issued debt instruments corresponding to a value of SEK 69,221 million under its MTN programme, Euro Medium Term Note and S.O. Bond programme and in registered covered bonds. Disruptions, uncertainty and/or increased volatility in the global debt capital markets may have an adverse effect on the terms on which the Issuer is able to raise debt or the ability to raise debt at all. This could be due to circumstances out of the control of the Issuer such as general market disruptions or loss in confidence in financial markets stemming from for example severe changes in the economic outlook or external macro-economic shocks, uncertainty and speculation regarding the solvency of market participants or operational problems affecting third parties.

As at the date of this Prospectus, the Issuer has credit ratings from S&P Global Ratings Europe Limited ("**Standard & Poor**") of A and A1 (long term and short term) and from Fitch Ratings Ireland Limited ("**Fitch**") of A and F1 (long term and short term). Any downgrade of the Issuer's credit ratings is likely to increase the Issuer's borrowing costs, adversely affect the liquidity position of the Issuer, limit its access to the capital markets or undermine confidence in and the competitive position of the Issuer under certain bilateral terms in some of its trading and collateralised financing contracts, limiting the range of counterparties willing to enter into transactions with the Issuer. Any of the events above could lead to increased funding costs and decreased margins and incomes from the Issuer's core business, and could therefore have a material adverse effect on the Issuer's business and results of operations.

Market risk

Market risk is the risk of loss or reduced future income due to market fluctuations. The Issuer's market risk includes interest-rate risk, currency risk, basis-spread risk and credit-spread risk. Interest-rate risks arise when interest fixing periods or interest bases for assets and liabilities are mismatched.

Since the Issuer conducts lending operations, the Issuer is largely dependent on interest-rate levels as interest rates are the single most important factor that affects margins in connection with its core business, i.e. lending. Variations in interest rates may result in losses or lower future income, as assets and liabilities have different fixed-interest periods and interest terms. Measured using the pillar 2 methodology implemented by the Swedish FSA, the risk to economic value as of 31 December 2020 was SEK 192 million and the risk to net interest income was SEK 76 million.

Against this background, a liquid derivative market enabling the Issuer to swap foreign currencies and interest rates is therefore essential, and any significant disruption in the access to such market would harm the Issuer. The Issuer is exposed to basis-spread risk that refers to the risk associated with derivative transactions that are used to hedge financing in currencies other than SEK. The basis-spread risk is not hedged and a stressed scenario as of 31 December 2020 would decrease the Issuer's equity with SEK 47 million.

Credit-spread risk refers to the assets in the liquidity-buffer that is exposed to changing conditions between the different issuers' interest costs and the risk-free interest rate. Measured using the pillar 2 methodology implemented by the Swedish FSA, as of 31 December 2020 a stressed scenario would decrease the Issuer's equity with SEK 159 million.

Environmental, Social and/or Governance "ESG" risks

There is a risk that the Issuer's operations have a direct or indirect negative effect on, or are directly or indirectly negatively affected by, environmental, social and/or governance ("**ESG**") factors, such as the climate and the environment, human rights and working conditions (including social conditions and personnel related matters), anti-corruption efforts and financial criminality.

The Issuer's exposure to climate and environmental risks primarily arises in conjunction with its grant of credit. The Issuer's customers are exposed to environmental risks and climate risks which may have an impact on the

customer's business', properties, buildings and collateral, including both acute risks, such as droughts, storms, pollutions, animal diseases and other natural disasters, chronic risks such as gradual changes to the climate and a transition risk such as increased costs for fossil based products necessary for conducting its business or regulatory changes. An outburst of a disease or a natural disaster striking a specific land area or sector such as flooding, landslides and/or erosion, could adversely affect the value of a customer's property or business, leading to deterioration of the collateral value and/or the customer migrating to less favourable credit classes, thereby increasing the Issuer's risk of credit losses (since borrowers would face difficulties in repaying their loans should the collateral decrease in value). Since properties are used as collateral for an absolute majority of the loans provided by the Issuer, this risk is highly significant.

Internal and operational control risks

The Issuer is subject to the risk of failure or interruption to its IT and other systems

The Issuer is dependent on the ability to keep customer information and to process transactions as well as on internal and external systems for its loan distribution. The Issuer's business is thus dependent on the IT-systems to serve customers, support the Issuer's business process, ensure complete and accurate processing of financial transactions and support the overall internal control framework.

Disruptions in the Issuer's IT infrastructure or other systems may have a material adverse effect on the Issuer's ability to conduct its business and furthermore its financial condition and results of operations. Disruptions may, for example, be caused by internal factors, such as larger projects for replacing or upgrading existing IT platforms and/or systems, which, if replaced or upgraded inappropriately, risks resulting in IT platforms and/or systems that do not function as expected and result in, among other things, unreliable data processing with impact on financial reporting. There is also a risk for disruptions caused by external factors, such as the availability of experts vital for technical support or completion of embarked projects.

The occurrence of such a failure may not be adequately covered by the Issuer's business continuity and disaster recovery planning. A significant degradation, failure or lack of the Issuer's information systems or any other systems in the trading process would cause slower response times, delays or failure to complete transactions on a timely basis, failed settlement and trades, incomplete or inaccurate accounting and recording or processing of trades, which would have a negative impact on the Issuer's operations. The complex nature of the financial markets, and the speed with which they develop, require highly complex system solutions and competent personnel to operate, monitor and maintain them. If the Issuer would fail to update and expand its systems and networks adequately or to adapt its systems and technology to evolving customer demands or emerging industry standards, this would accentuate the IT-related risks and thus further increase the negative outcome of the Issuer. The degree to which IT failures may affect the Issuer is uncertain and presents a highly significant risk to the Issuer's operations.

Operational and cyber risks

Operational risk is the risk of losses due to inappropriate or unsuccessful processes, human error, faulty systems or external events, including legal risks. Operational risk and losses can result from fraud or other external or internal crime, errors by employees, failure to document transactions properly or to obtain proper internal authorisation, failure to comply with regulatory requirements and conduct of business rules, equipment failures, natural disasters or the failure of internal or external systems, for example, caused by the Issuer's suppliers or counterparties. The Issuer's business is also dependent on the ability to process a large number of transactions within the ordinary course of its operations. Any failure in conducting such transactions efficiently and accurately due to operational risks being materialised may thus adversely affect the Issuer's operations.

Moreover, similar to all major financial institutions, the Issuer's activities are subject to cyber-related risks, such as ransomware attacks and denial of service attacks, the nature of which is continually evolving. The cyber-threat to the Swedish financial sector is extensive and persistent. A breach in security of the Issuer's IT systems risks compromising the availability of important systems and may disrupt the Issuer's business. There is also a risk of blackmail attempts and the disclosure of sensitive or confidential information, which would create significant financial and legal exposure, and damage the Issuer's reputation and brand. Cybersecurity risks are foremost related to the Issuer's internet bank users and include fraudulent transactions, identity theft, potential unauthorised access to privileged and sensitive customer information including account information. There is also a risk of social engineering attempts and the disclosure of sensitive or confidential information, which would create significant financial and legal exposure, and damage the Issuer's reputation and brand. As the Issuer's business is digitalised to a large extent, these risks are more prominent to the Issuer compared to competitors and other lenders whose operations are less digitalised. The Issuer may experience security breaches or unexpected disruptions to

its systems and services in the future, which could, in turn, result in liabilities or losses to the Issuer, its customers and/or third parties and have an adverse effect on the Issuer's business, reputation, brand and results of operations. The degree to which operational failure or the occurrence of a cyber-related incident may affect the Issuer is uncertain and presents a highly significant risk to the Issuer's ability to carry out transactions efficiently and accurately.

Risks relating to outsourcing and third parties

The Issuer relies on certain service and business process outsourcing and other partners. The Issuer's critical business systems, for example for the origination of loans, electronic identification of customers and financial crime surveillance, are dependent on third party software and infrastructure. While alternative business outsourcing and other partners are available, it can be difficult for the Issuer to replace these relationships on commercially reasonable terms, or at all, and seeking alternate relationships could be time consuming and result in interruptions to the Issuer's business. The Issuer's use of business outsourcing partners also exposes the Issuer to reputational risks. The failure of the Issuer's third-party providers to perform their services to the Issuer's standards and any deterioration in or loss of any key relationships can have a material adverse effect on the Issuer's business, financial condition and results of operations.

The Issuer's business outsourcing partners and other third parties could commit fraud with respect to the services that the Issuer outsources to them, fail to comply with applicable laws and regulations, such as data protection requirements, or fail to otherwise provide their agreed services to the Issuer. To the extent these third parties violate laws, other regulatory requirements or their contractual obligations to the Issuer, or otherwise act inappropriately in the conduct of their business, the Issuer's business and reputation could be negatively affected or penalties could be directly imposed on the Issuer. Furthermore, there is a risk that the Issuer's methods and procedures for overseeing how outsourcing partners and other third parties operate their businesses may not detect the occurrence of any violations for a substantial period of time, which could exacerbate the effect of such violations. Any of the above can have a material adverse effect on the Issuer's business, financial condition and results of operations.

The loss of key personnel may adversely affect the Issuer's performance

During 2021, the Issuer had an average number of employees of 225, of which 8 are considered key personnel. The Issuer's performance is dependent on the talent, experience and commitments of highly skilled individuals. The Issuer's ability to develop its business and to compete effectively is dependent on its ability to retain and motivate its existing employees and, where necessary, recruit skilled employees, particularly in light of the rapid pace of technological advances and the increasing complexity of financial markets and their regulatory landscape. Competition from within the financial services industry and from businesses outside the financial services industry for qualified employees is intense and an inability to attract, keep and if necessary recruit skilled personnel, or the loss of a significant number of key personnel, may cause disruption to the Issuer's business, which could have adverse effect on the Issuer's development, growth and financial performance.

Compliance risks

The banking and financing sector is heavily regulated and the Issuer's business is subject to regulation and regulatory supervision pursuant to numerous directives, laws, regulations and policies issued by, *inter alia*, the EU and Sweden. Any significant regulatory developments, for example relating to financial accounting and reporting standards, could have an effect on how the Issuer conducts its business (should it adversely affect the value of its assets) and on the Issuer's results of operations (should it entail unexpected costs and/or impose restrictions on the development of the Issuer's business operations or otherwise affect its earnings). This supervision and regulation, in particular in the EU and Sweden, if changed, could materially affect the Issuer's business, the products and services it offers or the value of its assets.

The management of business, regulatory and legal risks requires, among other things, guidelines and policies for the accurate registration and control of a large number of transactions and events. However, there is a risk that such guidelines and policies are inadequate or do not comply with applicable regulations. For example, some methods used by the Issuer to estimate, measure and manage risk are based on perceived historic market behaviour and may therefore prove to be inadequate for predicting future risk exposure. Other methods for risk management are based on evaluation of information regarding markets, customers or other information that is publicly known or otherwise available to the Issuer. Such information has not always been and may not always be accurate or correctly evaluated or a reliable indicator of default and may therefore be inadequate for the purpose of risk management. Non-compliance with, as well as deficiencies in, guidelines and policies for risk management that leads to negative publicity or criticism from the Swedish FSA or other regulators within the financial sector could have a material adverse effect on the Issuer's reputation. Furthermore, any non-compliance may lead to significant

finances from the Swedish FSA or other regulators and/or require the Issuer to take costly measures to ensure compliance.

As a lender to individuals, the Issuer processes large quantities of personal data in relation to its customers. Such processing of personal data is subject to extensive regulation and scrutiny following the implementation of the general data protection regulation 2016/679/EU (“**GDPR**”) that became applicable as of 25 May 2018. Efforts to continuously ensure compliance with the GDPR is time-consuming and costly. Any non-compliance with applicable data protection legislation risks leading to substantial administrative fines and other actions which would have a material effect on the ability of the Issuer to conduct its business, such as a temporary or permanent ban on data processing. Any administrative or monetary sanctions (including administrative fines of up to the greater of EUR 20 million or 4.0 per cent of the total annual turnover) would adversely affect the Issuer’s business, financial condition and results of operations.

Legal and regulatory risks

Increased capital and liquidity requirements

The Issuer is subject to capital adequacy and liquidity regulations, which aim to put in place a comprehensive and risk-sensitive legal framework to ensure enhanced risk management among financial institutions. In addition to the risk-based capital adequacy regulation, there is also regulation regarding leverage ratio (i.e. a capital requirement independent from the riskiness of the exposures, as a backstop). Regulations which have impacted the Issuer and are expected to continue to impact the Issuer includes, among others, the EU Capital Requirements Directive 2013/36/EU, as amended (“**CRD**”), and the EU Capital Requirements Regulation (EU) No. 575/2013, as amended (“**CRR**”). CRD is supported by a set of binding technical standards developed by the European Banking Authority (the “**EBA**”). The regulatory framework will continue to evolve and any resulting changes could have a material impact on the Issuer’s business.

The capital adequacy framework includes, inter alia, minimum capital requirements for common equity tier 1 (“**CET 1**”) capital, for the component in the capital base with the highest quality, additional tier 1 capital and tier 2 capital. In addition to the minimum capital requirements, CRD provides for further capital requirements that are required to be satisfied with CET1 capital. Certain buffers may be applicable to the Issuer as determined by the Swedish FSA. The countercyclical buffer rate is a capital requirement which varies over time and is to be used to support credit supply in adverse market conditions. Due to the COVID-19 pandemic the Swedish FSA decided, on 16 March 2020, to decrease the countercyclical buffer from 2.5 per cent to 0.0 per cent, which is the rate applicable as of the date of this Prospectus. However, the Swedish FSA decided on 29 September 2021 to raise the countercyclical buffer rate to 1.0 per cent from 29 September 2022. A breach of the combined buffer requirements, which for the Issuer consist of the capital conservation buffer countercyclical capital buffer, is likely to result in restrictions on certain discretionary capital distributions by the Issuer, for example, dividends on CET1 and coupon payments on tier 1 capital instruments. The Swedish FSA has also an option to add capital requirement in form of Pillar 2 requirement (P2R) and pillar 2 guidance (P2G).

Furthermore, there is a degree of uncertainty concerning future capital requirements due to recent and forthcoming regulatory changes. On 27 November 2021, for example, the EU-commission submitted a proposal for the finalising the implementation of the Basel III agreement in the EU which, among other things includes an output floor (OF) to the risk-based capital requirements that sets a lower limit to the capital requirements that are produced by institutions’ IRB models. As a result of EBA’s regulatory review of the IRB-approach, they released new technical standards and guidelines aimed at reducing unwanted variation in risk weights and estimated risk parameter. In order to meet the new requirements, the institutions have had to make material changes to their models and submit new applications to their supervisors. The Swedish FSA has announced that they are delayed regarding the approval of the applications and the impact for Swedish banks, including the Issuer are therefore uncertain.

The conditions of the Issuer’s businesses as well as external conditions are constantly changing and the full set of capital adequacy rules applicable to Swedish financial institutions continues to evolve. For the foregoing reasons, the Issuer may be required to raise additional capital in the future. Such capital, whether in the form of debt financing, hybrid capital or additional equity, may not be available on attractive terms, or at all. If the Issuer is required to make additional provisions, increase its reserves or capital, or exit or change its approach to certain operations as a result of, for example, the initiatives to strengthen the regulation of credit institutions, this would adversely affect its results of operations or financial condition, all of which may adversely affect the Issuer’s abilities to raise additional capital.

Serious or systematic deviations by the Issuer from the above regulations would most likely lead to the Swedish FSA determining that the Issuer's business does not satisfy the statutory soundness requirement for credit institutions and thus result in the Swedish FSA imposing sanctions on the Issuer. Further, any increase in the capital and liquidity requirements could have a negative effect on the Issuer's liquidity (should its revenue streams not cover continuous payment to be made under its issued capital), funding (should it not be able to raise funding on attractive terms, or at all), financial condition (should liquidity and funding be negatively affected) and results of operations (should its costs increase).

Bank Recovery and Resolution Directive

The Issuer is subject to the Bank Recovery and Resolution Directive (“**BRRD**”) (which was amended by Directive (EU) 2019/879 (“**BRRD II**”) on 27 June 2019). The BRRD legislative package establishes a framework for the recovery and resolution of credit institutions and, inter alia, requires EU credit institutions to produce and maintain recovery plans setting out the arrangements that may be taken to restore the long-term viability of the institution in the event of a material deterioration of its financial position. Accordingly, the requirements under the BRRD are comprehensive, and require the Issuer to take extensive measures to ensure compliance.

The BRRD contains a number of resolution tools and powers which may be applied by the resolution authority (in Sweden the Swedish National Debt Office (*Riksgäldskontoret*)) upon certain conditions for resolution being fulfilled. These tools and powers may be used alone or in combination, and include, *inter alia*, a general power to write-down all or a portion of the principal amount of, or interest on, certain eligible liabilities, whether subordinated or unsubordinated, of the institution in resolution and/or to convert certain unsecured debt claims, including claims under senior notes, and subordinated notes, into any other securities, including CET 1 instruments of the surviving entity, which equity could also be subject to any further application of the general bail-in tool. This means that most of such failing institution's debt (including, in the case of the Issuer, the Notes) could be subject to bail-in, except for certain classes of debt, such as certain deposits and secured liabilities. In addition to the general bail-in tool, the BRRD provides for relevant authorities to have the power, before any other resolution action is taken, to permanently write-down or convert into equity relevant capital instruments (such as the Notes) at the point of non-viability (see the risk factor “*Loss absorption at the point of non-viability of the Issuer*” below for further information). Ultimately, the authority may take control of a failing institution and, for example, transfer the institution to a private purchaser or to a publicly controlled entity pending a private sector arrangement. All these actions can be taken without any prior shareholder approval.

The powers set out in the BRRD will impact how institutions are managed as well as, in certain circumstances, the rights of creditors. Under the BRRD regime, Noteholders may be subject to write-down or conversion into equity on any application of the general bail-in tool and non-viability loss absorption. In such circumstances, this may result in holders losing some or all of their investment. The general bail-in tool can be used to recapitalise an institution that is failing or about to fail, allowing authorities to restructure it through the resolution process and restore its viability after reorganisation and restructuring. The write-down and conversion power can be used either together with, or also, independently of, a resolution action. Other powers provided to resolution authorities under the BRRD in respect of debt instruments (which could include the Notes) include replacing or substituting the institution as obligor in respect of such debt instruments; modifying the terms of debt instruments (including altering the maturity and/or the amount of interest payable and/or imposing a temporary suspension on payments), and/or discontinuing the listing and admission to trading of debt instruments. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of holders of Notes, the price or value of Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

It is not possible to predict exactly how the powers and tools of the Swedish National Debt Office provided in the BRRD (as implemented into Swedish law) will affect the Issuer, or the Noteholders. However, the powers and tools given to the Swedish National Debt Office are numerous and the exercise of any of those powers or any suggestion of such exercise would, therefore, materially adversely affect the rights of Noteholders (should the Notes be written-down or converted to other securities as set out above), the price or value of the Notes (should the secondary market not trade the Notes at their nominal amount) and/or the ability of the Issuer to satisfy its obligations under the Notes (should the resolution authority take control over the Issuer in certain scenarios). Accordingly, the degree to which amendments to BRRD or application of BRRD may affect the Issuer is uncertain and presents a highly significant risk to the Issuer's funding and compliance costs.

Minimum requirement for own funds and eligible liabilities under the BRRD

In order to, among other things, ensure the effectiveness of bail-in and other resolution tools, all in-scope institutions must have sufficient own funds and eligible liabilities available to absorb losses and contribute to

recapitalisation if the bail-in tool were to be applied. Each institution must meet an individual MREL, set by the relevant resolution authorities (the Swedish National Debt Office for Sweden) on a case by case basis.

The MREL requirement has been required to be met as from 1 January 2018 (the liabilities proportion principle). On 18 June 2018, the Swedish National Debt Office announced and clarified that the MREL requirement of the Issuer which means, among other things that by 1 January 2022 at the latest, the requirement must be fully met with subordinated and non-preferred liabilities (the subordinated and non-preferred liabilities principle). Due to the COVID-19 pandemic, the Swedish National Debt Office has further announced that the phase in period for the above mentioned MREL requirements would be extended until 1 January 2024. Even though the deadline for meeting these requirements has been extended, the Issuer will be required to issue an amount of additional eligible liabilities in the form of MREL eligible liabilities, such as the Notes in order to meet the MREL requirements within the required timeframes. If the Issuer was to experience difficulties in raising such eligible liabilities, it would have to reduce its lending or investments in other operations. This is likely to lead to a decrease in the Issuer's revenue which, if its costs remain unchanged, would decrease its operating results. Further, given that the MREL requirements must be met by all EU credit institutions (not just to those identified as being of a particular size or of systemic importance), there is a risk that there is not a sufficient investor appetite in the debt markets for the aggregate volume of eligible liabilities which must be issued up until 1 January 2024, which would have a negative effect on the price and value of such instruments.

Non-compliance with anti-money laundering regulations

The Issuer's business is subject to a regulatory framework which requires the Issuer to take measures to counteract money laundering and terrorist financing within its operations. Criminal activity within the banking industry, in which the Issuer operates, has been increasingly uncovered in recent years. This area, not least the issue of money laundering, received particularly intense media in the past three years. As a bank, the Issuer is subject to a regulatory framework which requires the Issuer to take measures to among other things counteract money laundering and terrorist financing. There is a risk that the Issuer's procedures, internal control functions and guidelines to counteract money laundering and terrorist financing are not sufficient or adequate to ensure that the Issuer complies with the regulatory framework. This may result from, for example, insufficient procedures, internal control functions or guidelines, or errors by employees, suppliers or counterparties.

Failure to comply with the applicable rules and regulations by the Issuer could result in legal implications. If the Issuer were to become subject to remarks or warnings and/or administrative fines imposed by the Swedish FSA, this could cause significant, and potentially irreparable, damage to the reputation of the Issuer and, as a result, the Issuer's business, financial position and results of operations could be materially adversely affected.

The Issuer is exposed to tax related risks and risks of changes in tax legislation

As at 31 December 2020, the Issuer's tax expenses totalled SEK 94 million and its effective income tax was 23.6 per cent. Accordingly, tax expenses constitute a significant part of the Issuer's total expenses (approximately 16.8 per cent). Should the Issuer's tax situation for previous, current and future years change (as a result of legislative changes and decisions made by the tax authorities or as a result of changes tax treaties, regulations, case law or requirements of the tax authorities, possibly with retroactive effect), it could adversely affect the Issuer's business (should taxes imposed on its products and services negatively impact the demand for such products and services), financial condition (should taxes negatively impact the value of its assets) and results of operations (should taxes increase its costs and thus decrease, among other things, its operating profits). Further, the Issuer's business and transactions are conducted in accordance with the Issuer's interpretation of applicable laws, tax treaties, regulations, case law and requirements of the tax authorities. However, there can be no assurance that its interpretation of applicable laws, tax treaties, regulations, case law or other rules or administrative practice is correct.

For example, on 28 October 2021 the Swedish government presented a proposal to the Swedish parliament for the introduction of a new tax for larger banks and other credit institutions. The proposal suggests that a so-called risk tax shall be introduced for banks and credit institutions with liabilities of more than SEK 150 billion attributable to operations in Sweden. The new legislation is proposed to enter into force on 1 January 2022 and the suggested tax rate is set to 0.05 per cent of total debt attributable to business carried out in Sweden for taxation years commencing in 2022 and 0.06 per cent in following years. The proposal is currently subject to the parliament's approval. However, there is a risk that the proposal, if implemented, will increase the Issuer's tax costs, which could have an adverse effect on the Issuer's results of operations and financial condition.

Changes to the Swedish Deposit Insurance Scheme

The Swedish Deposit Insurance Scheme (“SDIS”) guarantees the depositors’ deposits in the event the Issuer is declared bankrupt or if the Swedish FSA determines that the SDIS should be activated in a given situation. The SDIS is administered by the Swedish National Debt Office. If activated, the insurance guarantees each customer compensation amounting to the value of the total funds in his or her account(s) with the Issuer, plus accrued interest, until the time of bankruptcy or the Swedish FSA’s activation decision. As of the date of this Prospectus, the maximum compensation amounts to SEK 1,050,000, with some exceptions. There is a risk that regulatory changes which decrease the maximum compensation amount or change the SDIS are implemented, which could have a negative effect on the amount of customer savings deposit currently held with the Issuer. This is likely to have a negative effect on the Issuer’s business and liquidity (should its number of depositors decrease), funding and financial condition (should its assets decrease if depositors withdraw their deposits) and results of operations (should its liquidity and funding costs increase if the deposits decrease).

Risks relating to the Notes

The Issuer’s obligations under the Notes are deeply subordinated

The Notes are intended to constitute unsecured, deeply subordinated obligations of the Issuer and the Issuer Consolidated Situation (as defined in the Terms and Conditions). In the event of the voluntary or involuntary liquidation (*likvidation*) or bankruptcy (*konkurs*) of the Issuer, the rights of the Noteholders to payments on or in respect of (including any damages awarded for breach of any obligations under) the Notes (which in the case of any payment of principal shall be to payment of the then Nominal Amount only) shall at all times rank (a) *pari passu* without any preference among themselves; (b) *pari passu* with any liabilities or capital instruments of the Issuer which constitute Additional Tier 1 Capital and any other liabilities or capital instruments of the Issuer that rank, or are expressed to rank, equally with the Notes, in each case as regards the right to receive periodic payments (to the extent any such periodic payment has not been cancelled) on a liquidation or bankruptcy of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer; (c) senior to the claims of holders of all classes of the Issuer’s shares in their capacity as such holders and any other liabilities or capital instruments of the Issuer that rank, or are expressed to rank, junior to the Notes, in each case as regards the right to receive periodic payments (to the extent any such periodic payment has not been cancelled) on a liquidation or bankruptcy of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer; and (d) junior to any present and future claims of depositors of the Issuer, any other unsubordinated creditors of the Issuer, any subordinated creditors (except as expressly stated in item (a) above) including for the avoidance of doubt holders of any instruments which as at their respective issue dates constitute or constituted Tier 2 Capital, and any non-preferred creditors falling within the scope of 18 §, first paragraph of the Swedish Rights of Priority Act (*förmånsrättslag (1970:979)*).

In the event of the voluntary or involuntary liquidation or bankruptcy of the Issuer, there is a risk that the Issuer does not have enough assets remaining after payments to senior ranking creditors to pay amounts due under the Notes.

No Noteholder who is indebted to the Issuer shall be entitled to exercise any right of set-off or counterclaim against moneys owed by the Issuer in respect of Notes held by such Noteholder.

As a result of the above, there is a risk that the Noteholders will lose some or all of their investment in the Notes. Although the Notes may pay a higher rate of interest than comparable notes which are not subordinated or which are subordinated but not so deeply, there is a significant risk that an investor in the Notes will lose all or some of its investment in the event of a voluntary or involuntary liquidation or bankruptcy of the Issuer. Accordingly, in a worst case scenario, the value of the Notes may be reduced to zero.

As noted in the risk factors “*Bank Recovery and Resolution Directive*” above and “*Loss absorption at the point of non-viability of the Issuer*” below, there is a risk of the Notes being written-down or converted into other securities in a resolution scenario or at the point of non-viability of the Issuer.

Interest payments on the Notes may be cancelled by the Issuer

Any payment of Interest in respect of the Notes shall be payable only out of the Issuer’s Distributable Items and (i) may be cancelled, at any time, in whole or in part, at the option of the Issuer in its sole discretion and notwithstanding that it has Distributable Items or that it may make any distributions pursuant to the Applicable Banking Regulations; or (ii) will be mandatorily cancelled if and to the extent so required by the Applicable Banking Regulations, including the applicable criteria for Additional Tier 1 Capital instruments.

Any cancellation of Interest (in whole or in part thereof) shall in no way limit or restrict the Issuer from making any payment of interest or equivalent payment or other distribution in connection with any instrument ranking junior to the Notes, any CET1 capital of the Issuer or in respect of any other Additional Tier 1 Capital instruments. In addition, the Issuer may without restriction use funds that could have been applied to make such cancelled payments to meet its other obligations as they become due.

As a result of the above, there is a risk that the payment of Interest is cancelled, which would adversely affect the Noteholders. Following any cancellation of interest as described above, Noteholders shall have no right thereto or to receive additional interest or compensation. Furthermore, no cancellation of interest in accordance with the terms of the respective Notes shall constitute a default in payment or otherwise under the Notes or entitle Noteholders to take any action to cause the Issuer to be declared bankrupt or for the liquidation, winding-up or dissolution of the Issuer. Accordingly, in a worst case scenario, the amount of any Interest may be reduced to zero.

Any actual or anticipated cancellation of interest on the Notes will likely have an adverse effect on the market price of the Notes. In addition, as a result of the interest cancellation provisions of the Notes, the market price of the Notes is likely to be more volatile than the market prices of other debt securities on which interest accrues that are not subject to such cancellation and also more sensitive generally to adverse changes in the Issuer's financial condition.

Risks relating to loss absorption following a Trigger Event

If at any time the CET1 ratio of (i) the Issuer has fallen below 5.125 per cent., or (ii) 7.00 per cent of the Issuer Consolidated Situation, this constitutes a Trigger Event and the Total Nominal Amount of the Notes shall be written down by an amount sufficient to restore the CET1 ratio of the Issuer to at least 5.125 per cent., or the Issuer Consolidated Situation to at least 7.00 per cent., provided that the Nominal Amount of each Note may not be written down below SEK 1. The write down of the Notes is likely to result in a holder of Notes losing some or all of its investment. Following any such reduction of the Total Nominal Amount, the Issuer may, at its discretion, reinstate in whole or in part the principal amount of the Notes, if certain conditions are met. The Issuer will not in any circumstances be obliged to reinstate in whole or in part the principal amount of the Notes (and any such reinstatement is likely to require unanimous approval at a shareholders' meeting of the Issuer).

The Issuer and/or the Swedish FSA may determine that a Trigger Event has occurred on more than one occasion and the reduced Nominal Amount of each Note may be written down on more than one occasion. Further, during any period when the then Nominal Amount of a Note is less than the initial Nominal Amount, interest will accrue on and the Notes will be redeemed at the reduced Nominal Amount of the Notes.

The Issuer's and/or the Swedish FSA's calculation of the CET1 ratio of the Issuer and/or the Issuer Consolidated Situation, and therefore its determination of whether a Trigger Event has occurred, shall be binding on the Noteholders, who shall have no right to challenge the published figures detailing the CET1 ratio of the Issuer and/or the Issuer Consolidated Situation.

Risks relating to loss absorption at the point of non-viability of the Issuer

The holders of Notes are subject to the risk that the Notes may be required to absorb losses as a result of statutory powers conferred on resolution and competent authorities in Sweden (the Swedish National Debt Office and the Swedish FSA, respectively). As noted above in the risk factor "*Bank Recovery and Resolution Directive*", the powers provided to the Swedish National Debt Office and the Swedish FSA under the BRRD include write-down/conversion powers to ensure that relevant capital instruments (such as the Notes) fully absorb losses at the point of non-viability of the issuing institution in order to allow it to continue as a going concern subject to appropriate restructuring. As a result, the BRRD contemplates that resolution authorities may require the permanent write-down of such capital instruments (which write-down may be in full) or the conversion of them into CET 1 instruments at the point of non-viability (which CET 1 instruments may also be subject to any application of the general bail-in tool described above) and before any other bail-in or resolution tool can be used. Measures ultimately adopted in this area may apply to any debt currently in issue, including the Notes. Accordingly, in a worst case scenario, the capital instruments may be written down and the value of the Notes may be reduced to zero.

The application of any non-viability loss absorption measure may result in Noteholders losing some or all of their investment. Any such conversion to equity or write-off of all or part of an investor's principal (including accrued but unpaid interest) shall not constitute an event of default and any affected holder of Notes will have no further claims in respect of any amount so converted or written off. The exercise of any such power may be inherently unpredictable and may depend on a number of factors which may be outside the Issuer's control. Any such

exercise, or any suggestion that the Notes could become subject to such exercise, could, therefore, materially adversely affect the value of the Notes.

The Issuer may redeem the Notes on the occurrence of a Capital Event or Tax Event

The Issuer may in certain circumstances, at its option, but in each case subject to obtaining the prior consent of the Swedish FSA, redeem the Notes upon the occurrence of a Capital Event or Tax Event at par together with accrued Interest on any Interest Payment Date.

It should also be noted that the Issuer may redeem the Notes as described above even if (i) the Total Nominal Amount of the Notes has been reduced by means of a write-down in accordance with the Terms and Conditions and (ii) the principal amount of the Notes has not been fully reinstated to the initial Nominal Amount of the Notes.

There is a risk that the Noteholders will not be able to reinvest the amounts received upon redemption at a rate that will provide the same rate of return as their investments in the Notes.

The Notes have no maturity and call options are subject to the prior consent of the Swedish FSA

The Notes have no fixed final redemption date and the Noteholders have no rights to call for the redemption of the Notes. The Issuer has the option to, at its own discretion, redeem the Notes five years after they have been issued at any time within the Initial Call Period or any Interest Payment Date falling after the Initial Call Period but the Noteholders should not invest in the Notes with the expectation that such a call will be exercised by the Issuer.

If the Issuer considers it favourable to exercise such a call option, the Issuer must obtain the prior consent of the Swedish FSA. The Swedish FSA may agree to permit such a call, based upon its evaluation of the regulatory capital position of the Issuer and certain other factors at the relevant time. There is therefore a risk that the Issuer will not exercise such a call or that the Swedish FSA will not permit such a call should the Issuer want or that the Issuer will not exercise such a call. The Noteholders may be required to bear the financial risks of an investment in the Notes for an indefinite period of time and there can be no assurance that the Issuer will or may exercise the call option.

Risks relating to substitution or variation of the Notes

Subject to Clause 12.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Event or Tax Event*) of the Terms and Conditions and the prior written permission of the Swedish FSA, the Issuer may, at its option and without the permission or approval of the relevant Noteholders, elect to substitute or vary the terms of all (but not some only) outstanding Notes for, or so that they become or remain, as applicable, Qualifying Securities if a Capital Event or Tax Event occurs.

There is a risk that, due to the particular circumstances of each Noteholder, any Qualifying Securities will be less favourable to each Noteholder in all respects or that a particular Noteholder would not make the same determination as the Issuer as to whether the terms of the relevant Qualifying Securities are not materially less favourable to Noteholders than the terms of the relevant Notes. The substitution or variation of the Notes may thus lead to changes in the Notes that have effects that are less favourable to the Noteholders. The Issuer bears no responsibility towards the Noteholders for any adverse effects of such substitution or variation (including, without limitation, with respect to any adverse tax consequence suffered by any Noteholder). The degree to which the Notes may be substituted or varied is uncertain and presents a significant risk to the return of the Notes.

The Issuer is not prohibited from issuing further debt, which may rank pari passu with or senior to the Notes

There is no restriction on the amount or type of debt that the Issuer, may issue or incur that ranks senior to, or *pari passu* with, the Notes. There is a risk that the incurrence of any such debt reduces the amount recoverable by Noteholders in the event of the voluntary or involuntary liquidation or bankruptcy of the Issuer, limits the ability of the Issuer to meet its obligations in respect of the Notes and results in Noteholders losing all or some of their investment in the Notes. The degree to which other debt that ranks senior to, or *pari passu* with, the Notes may be issued is uncertain and presents a significant risk to the amount recoverable by Noteholders.

The Issuer is not prohibited from pledging assets for other debt

There is no restriction on the amount or type of assets that the Issuer can pledge, or otherwise use as security, for other debt. If the Issuer chooses to do so, there is a risk that this reduces the amount recoverable by Noteholders in the event of the voluntary or involuntary liquidation or bankruptcy of the Issuer and result in Noteholders losing

all or some of their investment in the Notes. The degree to which any other asset pledged may affect the Noteholders is uncertain and presents a significant risk to the amount recoverable by Noteholders.

Risks relating to European Benchmarks Regulation

In order to ensure the reliability of reference rates (such as STIBOR), legislative action at EU level has been taken. Hence, the so-called Benchmarks Regulation (Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indexes used as reference values for financial instruments and financial agreements or for measuring investment fund results and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014) were added and entered into force on 1 January 2018. The Benchmark Regulation regulates the provision of reference values, reporting of data bases for reference values and use of reference values within the EU. Since the benchmark regulation has only been applied for a short period of time, the effects of it so far are difficult to assess. However, there are future risks that the benchmark regulation affects how certain reference rates are determined and how they are developed. This in conjunction with increased administrative requirements is likely to lead to a reduced number of entities involved in the determination of reference rates, which, in such case, would lead to a certain reference interest ceasing to be published.

The Terms and Conditions provide that the interest rate benchmark STIBOR, which applies for the Notes, can be replaced as set out therein, upon the occurrence of a Base Rate Event which includes if STIBOR ceases to be calculated or administered. Such replacement shall be made in good faith and in a commercially reasonable manner and is always subject to the Applicable Banking Regulations and the prior written consent of the Swedish FSA. However, there is a risk that such replacement is not made in an effective manner and consequently, if STIBOR ceases to be calculated or administered, an investor in the Notes would be adversely affected. The degree to which amendments to and application of the European Benchmarks Regulation may affect the Noteholders is uncertain and presents a significant risk to the return on the Noteholder's investment.

OVERVIEW OF THE NOTES

This section (Overview of the Notes) is only intended to serve as an introduction to the Notes. Any decision to invest in the Notes shall be based on an assessment of all information contained in this Prospectus as well as all documents incorporated herein by reference. The complete terms and conditions of the Notes are found on pages 23-52.

The Notes

The Issuer has issued 200 Notes with a Nominal Amount of SEK 2,000,000 each. The aggregate nominal amount of the Notes is SEK 400,000,000.

The Notes are denominated in Swedish kronor.

ISIN and common code

The Notes have been allocated the ISIN code SE0017484827. The Notes will also be allocated a common code upon admission to trading. Such common code has not been allocated at the date of this Prospectus.

Form of the Notes

The Notes are issued in dematerialised book-entry form and registered on a Securities Account on behalf of the relevant Noteholder. Hence, no physical notes have been issued. The Notes are registered in accordance with the Financial Instruments Accounts Act and registration requests relating to the Notes shall be directed to an Account Operator. Clearing and settlement relating to the Notes, as well as payment of Interest and redemption of principal amounts, will be performed within the CSD's account-based system and is reliant on the functioning of such system.

Status of the Notes

The Notes on issue are intended to constitute Additional Tier 1 Capital of the Issuer and the Issuer Consolidated Situation. The Notes will constitute direct, unsecured and subordinated debt liabilities of the Issuer, and all payments in respect of, or arising from (including any damages awarded for breach of any obligations under) such Notes, shall at all times rank:

- (a) *pari passu* without any preference among themselves;
- (b) *pari passu* with (i) any liabilities or capital instruments of the Issuer which constitute Additional Tier 1 Capital and (ii) any other liabilities or capital instruments of the Issuer that rank, or are expressed to rank, equally with the Notes, in each case as regards the right to receive periodic payments (to the extent any such periodic payment has not been cancelled) on a liquidation or bankruptcy of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer;
- (c) senior to the claims of holders of all classes of the Issuer's shares in their capacity as such holders and any other liabilities or capital instruments of the Issuer that rank, or are expressed to rank, junior to the Notes, in each case as regards the right to receive periodic payments (to the extent any such periodic payment has not been cancelled) on a liquidation or bankruptcy of the Issuer and the right to receive repayment of capital on a liquidation or bankruptcy of the Issuer; and
- (d) junior to any present and future claims of (i) depositors of the Issuer, (ii) any other unsubordinated creditors of the Issuer, (iii) except as expressly stated in (a) above, any subordinated creditors, including for the avoidance of doubt holders of any instruments which as at their respective issue dates constitute or constituted Tier 2 Capital, and (iv) any senior non-preferred creditors falling within the scope of the first paragraph of Section 18 of the Swedish Rights of Priority Act (*förmånsrättslagen (1970:979)*).

Issuance, repurchase and redemption

Issue Date and tenor

The Notes were issued on 16 February 2022. The Notes are perpetual and have no fixed date for redemption. The Issuer may only redeem the Notes in the circumstances described in Clause 12 (*Redemption and repurchase of the Notes*) of the Terms and Conditions. The Notes are not redeemable at the option of the Noteholders at any time.

Purchase of the Notes by the Issuer and related companies

Subject to applicable law and Clause 12.5 (*Permission from the Swedish FSA*) of the Terms and Conditions, the Issuer or a Group Company, or other company forming part of the Issuer Consolidated Situation, may at any time on or following the relevant First Call Date and at any price purchase Notes on the market or in any other way. Notes held by such company may at its discretion be retained, sold or cancelled.

Early redemption at the option of the Issuer

Subject to permission from the Swedish FSA in accordance with the Terms and Conditions, all (but not some only) outstanding Notes can be redeemed at the option of the Issuer (i) any time within the Initial Call Period or (ii) any Interest Payment Date falling after the Initial Call Period.

The Issuer can exercise its option by giving not less than fifteen (15) Business Days' notice to the Noteholders in accordance with the Terms and Conditions. The Notes shall be redeemed at a price per Note equal to the Nominal Amount together with accrued but unpaid Interest.

Noteholders should not invest in the Notes with the expectation that a call will be exercised by the Issuer. The Issuer might not elect to exercise such a call. Further, the Swedish FSA must agree to permit such a call, based upon its evaluation of the regulatory capital position of the Issuer and certain other factors at the relevant time. There is a risk that the Swedish FSA will not permit such a call. Noteholders should be aware that they may be required to bear the financial risks of an investment in the Notes indefinitely.

Early redemption, substitution or variation upon the occurrence of a Capital Event or Tax Event

Subject to permission from the Swedish FSA in accordance with the Terms and Conditions, all (but not some only) outstanding Notes can be (i) redeemed on any Interest Payment Date or (ii) substituted or varied without any requirement for the consent or approval of the Noteholders, so that they become or remain, as applicable, Qualifying Securities, provided that such substitution or variation does not itself give rise to any right of the Issuer to redeem, substitute or vary the terms of the Notes in accordance with the Terms and Conditions in relation to the Qualifying Securities so substituted or varied.

The Issuer can exercise its option by giving not less than fifteen (15) Business Days' notice to the relevant Noteholders and the Agent in accordance with the Terms and Conditions. If the Notes shall be redeemed, they shall be redeemed at a price per Note equal to the Nominal Amount together with accrued but unpaid Interest.

Payments in respect of the Notes

Any payment or repayment under the Finance Documents, or any amount due in respect of a repurchase of any Notes shall be made to such person who is registered as a Noteholder on the Record Date prior to an Interest Payment Date or other relevant due date, or to such other person who is registered with the CSD on such date as being entitled to receive the relevant payment, repayment or repurchase amount.

Interest

Each Note carries Interest at the Interest Rate applied to the Nominal Amount from (but excluding) the Issue Date up to (and including) the relevant Redemption Date. The Interest Rate will be the Base Rate, i.e. STIBOR or any reference rate replacing STIBOR in accordance with Clause 20 (*Replacement of Base Rate*) of the Terms and Conditions, plus a margin of 2.80 per cent (and any applicable Adjustment Spread) per annum.

Interest shall be calculated on the basis of the actual number of days in the Interest Period in respect of which payment is being made divided by 360 (actual/360-days basis).

The Interest Payment Dates will be 16 February, 16 May, 16 August and 16 November of each year or, to the extent such day is not a Business Day, the Business Day following from an application of the Business Day Convention. The first Interest Payment Date for the Notes will be 16 May 2022 and the last Interest Payment Date shall be the relevant Redemption Date.

Interest cancellation

Any payment of Interest in respect of the Notes shall be payable only out of the Issuer's Distributable Items and:

- (a) may be cancelled, at any time, in whole or in part, at the option of the Issuer in its sole discretion and notwithstanding that it has Distributable Items or that it may make any distributions pursuant to the Applicable Banking Regulations; or

- (b) will be mandatorily cancelled to the extent so required by the Applicable Banking Regulations, including the applicable criteria for Additional Tier 1 Capital instruments.

The Issuer can exercise its cancellation by giving notice to the relevant Noteholders and the Agent in accordance with the Terms and Conditions, which notice might be given after the date on which the relevant payment of Interest is scheduled to be made. However, failure to give such notice shall not prejudice the right of the Issuer to not pay Interest as aforementioned.

Trigger Events, loss absorption and reinstatement

A Trigger Event occurs if, at any time, the CET1 ratio of the Issuer or the Issuer Consolidated Situation, as calculated in accordance with the Applicable Banking Regulations, is less than 5.125 per cent., in the case of the Issuer, or 7.00 per cent., in the case of the Issuer Consolidated Situation, in each case as determined by the Issuer and/or the Swedish FSA (or any agent appointed for such purpose by the Swedish).

If at any time a Trigger Event occurs, the Issuer shall immediately notify the Swedish FSA, the relevant Noteholders and the Agent in accordance with the Terms and Conditions and the Total Nominal Amount or the Issuer's payment obligation under the respective Notes shall be written down. A write-down shall be made as a reduction of the Total Nominal Amount and such write-down shall be considered to be an unconditional capital contribution (*ovillkorat kapitaltillskott*) by the Noteholders and shall be made in consultation with the Swedish FSA and in accordance with the rules of the CSD. The amount of the reduction of the Total Nominal Amount on the Write Down Date shall equal the amount of a write-down that would reduce the Total Nominal Amount down to SEK 200 (i.e. down to a Nominal Amount of SEK 1) or such lower reduction amount as is sufficient to restore the CET1 ratio of the Issuer to at least 5.125 per cent., and the CET1 ratio of the Issuer Consolidated Situation to at least 7.00 per cent., in each case at the point of such write-down, on the terms as set out in Clause 11.1 (*Loss absorption upon a Trigger Event*) of the Terms and Conditions.

Following a write-down of the Total Nominal Amount, the Issuer may, at its sole and absolute discretion, reinstate the Notes, subject to compliance with any maximum distribution limits set out in the Applicable Banking Regulations. The Issuer will not in any circumstances be obliged to reinstate in whole or in part the principal amount of the Notes. Any such reinstatement may constitute a “transfer of value” (*värdeöverföring*) for the purposes of the Swedish Companies Act (*aktiebolagslagen (2005:551)*) which would require the unanimous approval of the shareholders of the transferor (i.e. the Issuer) at the time of the transfer. As of the date of this Prospectus, the Issuer's sole shareholder is Landshypotek Ekonomisk Förening. No assurance can be given that the Issuer's shareholder would approve any such reinstatement at the relevant time nor that the Issuer will continue to be owned solely by Landshypotek Ekonomisk Förening.

Unless write up of the principal of the Notes is permitted and possible in accordance with the rules of the CSD, reinstatement shall be made by way of issuing new notes that qualify as Additional Tier 1 Capital of the Issuer to the relevant Noteholders. Any such new note issuance shall specify the relevant details of the manner in which such new note issuance shall take effect and where the Noteholders can obtain copies of the new terms and conditions of the new notes. Such new notes shall be issued without any cost or charge to the Noteholders and shall be made in accordance with the rules of the CSD. For the avoidance of doubt, at no time may the reinstated Total Nominal Amount exceed the original Total Nominal Amount of the respective Notes (if issued in full), being SEK 400,000,000.

European Benchmarks Regulation

The Interest payable under the Notes is calculated by reference to the benchmark STIBOR, as defined in the Terms and Conditions. This benchmark is provided by Swedish Financial Benchmark Facility AB, a wholly owned subsidiary of Global Rate Set Systems Ltd (“SFBF”). On 27 December 2021, SFBF filed its application with the Swedish FSA to operate as an authorised administrator pursuant to Article 34 of the Benchmarks Regulation. At the date of this Prospectus, SFBF does not appear on the register of administrators and benchmarks maintained by ESMA pursuant to Article 36 of the Benchmarks Regulation. As far as the Issuer is aware, the provisions in Article 51 of the Benchmarks Regulation apply such that STIBOR may be continued to be used during the period during which the Swedish FSA processes SFBF's application.

Admission to trading

The Issuer shall use reasonable efforts to ensure that the Notes are admitted to trading on Nasdaq Stockholm within thirty (30) days from the Issue Date, or, if such admission to trading is not possible to obtain or maintain, admitted to trading on another Regulated Market. Prior to any admission to trading, there has been no public market for the

Notes. An active trading market for the Notes may not develop or, if developed, it might not be sustained. The Nominal Amount may not be indicative of the market price for the Notes.

The Issuer shall, following the admission to trading, use reasonable efforts to maintain the admission to trading as long as any Notes are outstanding, however not longer than up to and including the last day of which the admission to trading can reasonably, pursuant to the applicable regulations of the Regulated Market and the CSD, subsist.

The earliest date on which the Notes will be admitted to trading will be 9 March 2022. It is estimated that the Issuer's costs in conjunction with the admission to trading will not be higher than SEK 100,000.

Decisions by Noteholders

A request by the Agent for a decision by the Noteholders on a matter relating to the Finance Documents shall (at the option of the Agent) be dealt with at a Noteholders' Meeting or by way of a Written Procedure.

The Noteholders that have not adopted or voted for a decision shall not be liable for any damages that this may cause other Noteholders.

Information about decisions taken at a Noteholders' Meeting or by way of a Written Procedure shall promptly be sent by notice to each person registered as a Noteholder on the date referred to above in paragraph (a) or (b), as the case may be, and shall also be published on the websites of the Issuer and the Agent, provided that a failure to do so shall not invalidate any decision made or voting result achieved. The minutes from the relevant Noteholders' Meeting or Written Procedure shall at the request of a Noteholder be sent to it by the Issuer or the Agent, as applicable.

No direct action by Noteholders

Subject to certain exemptions set out in the Terms and Conditions, a Noteholder may not take any steps whatsoever against the Issuer to enforce or recover any amount due or owing to it pursuant to the Finance Documents, or to initiate, support or procure the winding-up, dissolution, liquidation or bankruptcy (or its equivalent in any other jurisdiction) of the Issuer in relation to any of the obligations and liabilities of the Issuer under the Finance Documents.

No right for the Noteholders or the Agent to accelerate the Notes

The Notes are intended to constitute Additional Tier 1 Capital of the Issuer. As such, the Terms and Conditions do not include any obligations or undertakings on the Issuer the breach of which would entitle the Noteholders or the Agent to accelerate the Notes.

Bankruptcy and liquidation

If, and, notwithstanding anything to the contrary in the Terms and Conditions, only if, the Issuer is declared bankrupt or put into liquidation, a Noteholder may prove or claim in such bankruptcy or liquidation for payment of the Nominal Amount of Notes held by such Noteholder, together with Interest accrued to (but excluding) the date of commencement of the relevant bankruptcy or liquidation proceedings to the extent the Interest has not been cancelled by the Issuer.

No other remedy against the Issuer than as set out in the immediately preceding paragraph shall be available to the Noteholders in respect of the Notes, whether for the recovery of amounts owing in respect of the Notes or in respect of any breach by the Issuer of any of its obligations or undertakings with respect to the Notes.

Time-bar

The right to receive repayment of the principal of the Notes shall be time-barred and become void ten (10) years from the Redemption Date. Subject to Clause 10 (*Interest and interest cancellation*) of the Terms and Conditions, the right to receive payment of interest (excluding any capitalised interest) shall be time-barred and become void three (3) years from the relevant due date for payment. The Issuer is entitled to any funds set aside for payments in respect of which the Noteholders' right to receive payment has been time-barred and has become void.

- 8.3 For the avoidance of doubt, neither a Noteholder nor the Agent has the right to accelerate the Notes or otherwise request a prepayment or redemption of the Notes if a failure to admit the Notes to trading or maintain admission to trading of the Notes in accordance with Clause 8.1 or 8.2 above occurs.

9. PAYMENTS IN RESPECT OF THE NOTES

10.2 Interest cancellation

10.2.1 Any payment of Interest in respect of the Notes shall be payable only out of the Issuer's Distributable Items and:

- (a) may be cancelled, at any time, in whole or in part, at the option of the Issuer in its sole discretion and notwithstanding that it has Distributable Items or that it may make any distributions pursuant to the Applicable Banking Regulations; or
- (b) will be mandatorily cancelled if and to the extent so required by the Applicable Banking Regulations, including the applicable criteria for Additional Tier 1 Capital instruments.

10.2.2 The Issuer shall give notice to the Noteholders in accordance with Clause 26 (*Notices*) of any such cancellation of a payment of Interest, which notice might be given after the date on which the relevant payment of Interest is scheduled to be made. Notwithstanding the foregoing, failure to give such notice shall not prejudice the right of the Issuer not to pay Interest as described above and shall not constitute an event of default for any purpose.

10.2.3 Following any cancellation of Interest as described above, the right of the Noteholders to receive accrued Interest in respect of any such Interest Period will terminate and the Issuer will have no further obligation to pay such Interest or to pay interest thereon, whether or not payments of Interest in respect of subsequent Interest Periods are made, and such unpaid Interest will not be deemed to have "accrued" or been earned for any purpose.

10.2.4 A cancellation of any payment of Interest at any time shall in no event constitute an event of default for any purpose.

10.3 Calculation of Interest in case of write-down or reinstatement

10.3.1 Subject to Clause 10.2 (*Interest cancellation*), in the event that a write-down of the Notes occurs pursuant to Clause 11.1 (*Loss absorption upon a Trigger Event*) during an Interest Period, Interest will continue to accrue on the Nominal Amount (as adjusted as of the relevant Write Down Date).

10.3.2 Subject to Clause 10.2 (*Interest cancellation*), in the event that a reinstatement of the Notes occurs pursuant to Clause 11.2 (*Reinstatement of the Notes*), Interest shall begin to accrue on the reinstated Nominal Amount with effect from (and including) the relevant Reinstatement Date.

10.3.3 In connection with a write-down or write-up pursuant to Clause 11 (*Loss absorption and reinstatement*), the Issuer shall inform the CSD of the adjusted basis for calculation that shall be applied on the next Interest Payment Date, in order for the Noteholders to receive an amount of Interest equivalent to the Interest Rate on the Nominal Amount so written down or written up (as applicable).

Under no circumstances shall any penalty interest (*dröjsmålsränta*) be payable by the Issuer in respect of the Notes.

11. LOSS ABSORPTION AND REINSTATEMENT

11.1 Loss absorption upon a Trigger Event

11.1.1 If at any time a Trigger Event occurs, the Issuer shall immediately notify the Swedish FSA and the Issuer shall immediately notify the Noteholders and the Agent in accordance with Clause 26 (*Notices*) and the Total Nominal Amount and the Issuer's payment obligation under the Notes shall be written down in accordance with this Clause 11.1 (*Loss absorption upon a Trigger Event*).

11.1.2 A write-down shall take place without delay on a date selected by the Issuer in consultation with the Swedish FSA (the "**Write Down Date**") but no later than one month following the occurrence of the relevant Trigger Event. The Swedish FSA may require that the period of one month referred to above is reduced in cases where it assesses that sufficient certainty on the required amount of the write-down is established or in cases where it assesses that an immediate write-down is needed. For the purposes of determining whether a Trigger Event has occurred, the CET1 ratios may be calculated at any time based on information (whether or not published) available to management of the Issuer, including

- information internally reported within the Issuer pursuant to its procedures for monitoring the CET1 ratios. The Issuer intends to calculate and publish the CET1 ratios on at least a semi-annual basis. The determination as to whether a Trigger Event has occurred shall be made by the Issuer and the Swedish FSA or any agent appointed for such purpose by the Swedish FSA. Any such determination shall be binding on the Issuer and the Noteholders.
- 11.1.3 A write-down shall be made as a reduction of the Total Nominal Amount and such write-down shall be considered to be an unconditional capital contribution (*ovillkorat kapitaltillskott*) by the Noteholders and shall be made in consultation with the Swedish FSA and in accordance with the CSD Regulations.
- 11.1.4 The aggregate reduction of the Total Nominal Amount of the Notes outstanding on the Write Down Date will, subject as provided below, be equal to the lower of:
- (a) the amount necessary to generate sufficient CET1 Capital that would restore the CET1 ratio of the Issuer to at least 5.125 per cent. and the CET1 ratio of the Issuer Consolidated Situation to at least 7.00 per cent. at the point of such reduction, after taking into account (subject as provided below) the *pro rata* write-down and/or conversion of the prevailing nominal amount of all Loss Absorbing Instruments (if any) to be written down and/or converted concurrently (or substantially concurrently) with the Notes, provided that, with respect to each Loss Absorbing Instrument (if any), such *pro rata* write-down and/or conversion shall only be taken into account to the extent required to restore the CET1 ratios contemplated above to the lower of (i) such Loss Absorbing Instrument's trigger level and (ii) the trigger level in respect of which the relevant Trigger Event under the Notes has occurred and, in each case, in accordance with the terms of the relevant Loss Absorbing Instruments and the Applicable Banking Regulations; and
 - (b) the amount that would result in the Nominal Amount of a Note being reduced to SEK 1.
- 11.1.5 The aggregate reduction determined in accordance with Clause 11.1.4 shall be applied to all of the Notes *pro rata* on the basis of their Nominal Amount immediately prior to the write-down and references herein to "**Write Down Amount**" shall mean, in respect of each Note, the amount by which the Nominal Amount of such Note is to be written down accordingly. A Trigger Event may occur on more than one occasion (and each Note may be written down on more than one occasion).
- 11.1.6 To the extent the write down and/or conversion of any Loss Absorbing Instruments for the purpose of Clause 11.1.4 is not possible for any reason, this shall not in any way prevent any write-down of the Notes. Instead, in such circumstances, the Notes will be written down and the Write Down Amount determined as provided above but without including for the purpose of Clause 11.1.4 any CET1 Capital in respect of the write down or conversion of such Loss Absorbing Instruments, to the extent it is not possible for them to be written down and/or converted.
- 11.1.7 The Issuer shall set out its determination of the Write Down Amount per Note in the relevant notice referred to in Clause 11.1.8 below together with the Nominal Amount following the relevant write-down. However, if the Write Down Amount has not been determined when such notice is given, the Issuer shall, as soon as reasonably practicable following such determination, notify the Write Down Amount to the Noteholders and the Agent in accordance with Clause 26 (*Notices*) and procure that the Swedish FSA is notified. The Issuer's determination of the relevant Write Down Amount shall be irrevocable and binding on all parties.
- 11.1.8 If the Notes are to be written down, the Issuer shall notify the Noteholders and the Agent in accordance with Clause 26 (*Notices*). Notwithstanding the foregoing, failure to give such notice shall not prejudice, affect the effectiveness of, or otherwise invalidate, any write-down of the Notes.
- 11.1.9 Any reduction of the Nominal Amount of a Note pursuant to this Clause 11.1 (*Loss absorption upon a Trigger Event*) shall not constitute an event of default by the Issuer for any purpose, and the Noteholders shall have no right to claim for amounts written down, whether in liquidation or bankruptcy of the Issuer or otherwise, save to the extent (if any) such amounts are reinstated in accordance with Clause 11.2 (*Reinstatement of the Notes*).

11.2 Reinstatement of the Notes

- 11.2.1 Following a write-down of the Total Nominal Amount in accordance with Clause 11.1 (*Loss absorption upon a Trigger Event*), the Issuer may, at its absolute discretion but subject to obtaining relevant approval from its shareholder (if required) reinstate any portion of the principal of the Notes, subject to compliance with any maximum distribution limits set out in the Applicable Banking Regulations and any other applicable regulations.
- 11.2.2 Unless write up of the principal of the Notes is permitted and possible in accordance with the CSD Regulations, reinstatement shall be made by way of issuing new notes that qualify as Additional Tier 1 Capital of the Issuer to the relevant Noteholders. Any such new note issuance shall specify the relevant details of the manner in which such new note issuance shall take effect and where the Noteholders can obtain copies of the new terms and conditions of the new notes. Such new notes shall be issued without any cost or charge to the Noteholders and shall be made in accordance with the CSD Regulations.
- 11.2.3 A reinstatement in accordance with this Clause 11.2 (*Reinstatement of the Notes*) shall be made taking into account any preceding or imminent reinstatement of corresponding or similar loss absorbing instruments issued by the Issuer or any other member of the Issuer, including but not limited to Additional Tier 1 Capital instruments (other than the Notes).
- 11.2.4 For the avoidance of doubt, at no time may the reinstated Total Nominal Amount exceed the original Total Nominal Amount of the Notes (if issued in full), as at the Issue Date, being SEK 400,000,000.

Any failure by the Issuer to reinstate the Notes on a pro rata basis with the write up of all Written Down Additional Tier 1 Instruments (if any) however will not affect the effectiveness, or otherwise invalidate, any reinstatement of the Notes and/or reinstatement of the Written Down Additional Tier 1 Instruments or give Noteholders any rights as a result of such failure.
- 11.2.6 If the Issuer decides to reinstate any proportion of the principal of the Notes, the Issuer shall notify the Noteholders and the Agent in accordance with Clause 26 (Notices) prior to such reinstatements becoming effective and specifying the date on which the reinstatements will become effective (the “**Reinstatement Date**”). Such notice shall specify the Record Date and any technical or administrative actions that a Noteholder needs to undertake to receive its portion of the reinstatement. A reinstatement of the Notes shall take place on a Business Day as selected by the Issuer, however, falling no earlier than twenty (20) Business Days following the effective date of the reinstatement notice.

- (b) substitute or vary the terms of all (but not some only) of the outstanding Notes without any requirement for the consent or approval of the Noteholders, so that they become or remain, as applicable, Qualifying Securities, provided that such substitution or variation does not itself give rise to any right of the Issuer to redeem, substitute or vary the terms of the Notes in accordance with this Clause 12.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Event or Tax Event*) in relation to the Qualifying Securities so substituted or varied.

12.5 Permission from the Swedish FSA

Any refusal by the Swedish FSA to give its permission shall not constitute an event of default for any purpose.

12.6 Early redemption amount

The Notes shall be redeemed at a price per Note equal to the Nominal Amount together with accrued but unpaid Interest.

12.7 Notice of early redemption, substitution or variation

12.7.1 Any redemption, substitution or variation in accordance with Clauses 12.2 (*Early redemption at the option of the Issuer*) and 12.4 (*Early redemption, substitution or variation upon the occurrence of a Capital Event or Tax Event*) shall be made by the Issuer having given:

- 20.1.1 Any determination or election to be made by an Independent Adviser, the Issuer or the Noteholders in accordance with the provisions of this Clause 20 (*Replacement of Base Rate*) shall at all times be made by such Independent Adviser, the Issuer or the Noteholders (as applicable) acting in good faith, in a commercially reasonable manner and by reference to relevant market data.
- 20.1.2 If a Base Rate Event has occurred, this Clause 20 (*Replacement of Base Rate*) shall take precedent over the fallbacks set out in paragraph (b) to (d) (inclusive) of the definition of STIBOR.

20.2 Definitions

In this Clause 20 (*Replacement of Base Rate*):

“**Adjustment Spread**” means a spread (which may be positive, negative or zero) or a formula or methodology for calculating a spread, or a combination thereof to be applied to a Successor Base Rate and that is:

- (a) formally recommended by any Relevant Nominating Body in relation to the replacement of the Base Rate; or
- (b) if paragraph (a) is not applicable, the adjustment spread that the Independent Adviser determines is reasonable to use in order to eliminate, to the extent possible, any transfer of economic value from one party to another as a result of a replacement of the Base Rate and is customarily applied in comparable debt capital market transactions.

“**Base Rate Amendments**” has the meaning set forth in Clause 20.3.4.

“**Base Rate Event**” means one or several of the following circumstances:

- (a) the Base Rate (for the relevant Interest Period) has ceased to exist or ceased to be published for at least five (5) consecutive Business Days as a result of the Base Rate (for the relevant Interest Period) ceasing to be calculated or administered;
- (b) a public statement or publication of information by (i) the supervisor of the Base Rate Administrator or (ii) the Base Rate Administrator that the Base Rate Administrator ceases to provide the applicable Base Rate (for the relevant Interest Period) permanently or indefinitely and, at the time of the statement or publication, no successor administrator has been appointed or is expected to be appointed to continue to provide the Base Rate;
- (c) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator that the Base Rate (for the relevant Interest Period) is no longer representative of the underlying market which the Base Rate is intended to represent and the representativeness of the Base Rate will not be restored in the opinion of the supervisor of the Base Rate Administrator;
- (d) a public statement or publication of information in each case by the supervisor of the Base Rate Administrator with the consequence that it is unlawful for the Issuer or the Issuing Agent to calculate any payments due to be made to any Noteholder using the applicable Base Rate (for the relevant Interest Period) or it has otherwise become prohibited to use the applicable Base Rate (for the relevant Interest Period);
- (e) a public statement or publication of information in each case by the bankruptcy trustee of the Base Rate Administrator or by the trustee under the bank recovery and resolution framework (*krishanteringsregelverket*) containing the information referred to in paragraph (b) above; or
- (f) a Base Rate Event Announcement has been made and the announced Base Rate Event as set out in paragraphs (b) to (e) above will occur within six (6) months.

“**Base Rate Event Announcement**” means a public statement or published information as set out in paragraph (b) to (e) of the definition of Base Rate Event that any event or circumstance specified therein will occur.

“**Independent Adviser**” means an independent financial institution or adviser of repute in the debt capital markets where the Base Rate is commonly used.

“**Relevant Nominating Body**” means, subject to applicable law, firstly any relevant supervisory authority, secondly any applicable central bank, or any working group or committee of any of them, or thirdly the Financial Stability Council (Finansiella stabilitetsrådet).

“**Successor Base Rate**” means:

- (a) a screen or benchmark rate, including the methodology for calculating term structure and calculation methods in respect of debt instruments with similar interest rate terms as the Notes, which is formally recommended as a successor to or replacement of the Base Rate by a Relevant Nominating Body; or
- (b) if there is no such rate as described in paragraph (a), such other rate as the Independent Adviser determines is most comparable to the Base Rate.

For the avoidance of doubt, in the event that a Successor Base Rate ceases to exist, this definition shall apply *mutatis mutandis* to such new Successor Base Rate.

20.3 Determination of Base Rate, Adjustment Spread and Base Rate Amendments

- 20.3.1 Without prejudice to Clause 20.3.2, upon a Base Rate Event Announcement, the Issuer may, if it is possible to determine a Successor Base Rate at such point of time, at any time before the occurrence of the relevant Base Rate Event at the Issuer's expense appoint an Independent Adviser to initiate the procedure to determine a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating and finally deciding the applicable Base Rate. For the avoidance of doubt, the Issuer will not be obliged to take any such actions until obliged to do so pursuant to Clause 20.3.2.
- 20.3.2 If a Base Rate Event has occurred, the Issuer shall use all commercially reasonable endeavours to, as soon as reasonably practicable and at the Issuer's expense, appoint an Independent Adviser to initiate the procedure to determine, as soon as commercially reasonable, a Successor Base Rate, the Adjustment Spread and any Base Rate Amendments for purposes of determining, calculating, and finally deciding the applicable Base Rate.
- 20.3.3 If the Issuer fails to appoint an Independent Adviser in accordance with Clause 20.3.2, the Noteholders shall, if so decided at a Noteholders' Meeting or by way of Written Procedure, be entitled to appoint an Independent Adviser (at the Issuer's expense) for the purposes set forth in Clause 20.3.2. If an event of default has occurred and is continuing, or if the Issuer fails to carry out any other actions set forth in Clause 20.3 to 20.6, the Agent (acting on the instructions of the Noteholders) may to the extent necessary effectuate any Base Rate Amendments without the Issuer's cooperation.
- 20.3.4 The Independent Adviser shall also initiate the procedure to determine any technical, administrative or operational changes required to ensure the proper operation of a Successor Base Rate or to reflect the adoption of such Successor Base Rate in a manner substantially consistent with market practice ("**Base Rate Amendments**").
- 20.3.5 Provided that a Successor Base Rate, the applicable Adjustment Spread and any Base Rate Amendments have been finally decided no later than prior to the relevant Quotation Day in relation to the next succeeding Interest Period, they shall become effective with effect from and including the commencement of the next succeeding Interest Period, always subject to any technical limitations of the CSD and any calculations methods applicable to such Successor Base Rate.

DESCRIPTION OF THE ISSUER

Overview

The Issuer, Landshypotek Bank AB (publ), was incorporated in Stockholm on 3 November 1994 under the laws of Sweden with the business name Landshypotek AB (publ). The Issuer is registered with the Swedish Companies Registration Office (*Bolagsverket*). The incorporation of the Issuer was part of the re-organisation of the General Mortgage Bank (*Sveriges Allmänna Hypoteksbank*) (the “GMB”), which was formed in 1861 as part of a government policy to increase the supply of capital to the agricultural sector, and the county mortgage bank associations (the “mortgage associations”), who provided funding for agricultural, forestry and horticultural purposes and who’s history goes back to 1836. The mortgage associations were re-organised and became an economic co-operative on 1 January 1995 under the name Landshypotek Ekonomisk Förening (the “Association”). At the same time, the business activities formerly carried out by GMB and the mortgage associations were transferred to the Issuer.

The Issuer is a wholly-owned subsidiary to the Association, which is an economic co-operative whose members are the Issuer’s customers in the farming and forestry sector. As of the end of 2020, the Association had approximately 37,000 members. The ownership structure is expected to entail a loyal ownership and customer group with a strong incentive in the performance of the Issuer. All business operations are conducted in the Issuer. The Issuer is dependent on the Association, since it is the sole shareholder of the Issuer. As of the date of this Prospectus, the Issuer has no subsidiaries.

Activities

The Issuer is specialised in offering financial services to Swedish agriculture and forestry with real estate property as collateral. The Issuer’s core business is to offer mortgage loans to customers in the farming and forestry sector, as well as to customers living on farms. The lending may also be secured by other collateral than real estate property, such as a personal guarantee, floating charge or EU-support (EU loans). In 2017, the Issuer launched an offering of mortgage loans to homeowners in Sweden secured with other real estate property than agricultural or forestry assets. Since 2014, the Issuer has also offered saving products through a digital service to the general public in Sweden.

The Issuer mainly uses the capital market as its source of funding and achieves the desired flexibility by offering a variety of borrowing instruments that attract different types of investors. The main source of funding is issuing of covered bonds.

The Issuer has a number of business partners that act as distributors for the Issuer’s products.

Sustainability is an important and integrated part of the Issuer’s business strategy, as evident by the Issuer being an issuer of green bonds with dedicated use of proceeds since 2018.

Accounting principles

Unless stated otherwise, the financial information relating to 2020 in this section “*Description of the Issuer*” has been extracted without adjustment from the Issuer’s 2020 annual report, which is the most recently published annual report of the Issuer.

The Issuer has not published consolidated financial statements since the financial year 2018 ended, following the divestments of its wholly-owned dormant subsidiaries. Hence, the accounting principles relating to consolidated financial statements are inapplicable for the financial years following 2018. The accounting principles that remain applicable will continue to be applied, as described below and in the relevant financial statements, from and including, the financial year 2019 onwards. The consolidated financial statements prior to and including 2018 were prepared in accordance with the International Financial Reporting Standards (“IFRS”) and interpretations of the above as published by the International Financial Reporting Interpretations Committee (“IFRIC”) as adopted by the European Union. Furthermore, the Swedish FSA’s Regulations and General Guidelines for Annual Reports in Credit Institutions and Securities Companies (*Föreskrifter och allmänna råd (FFFS 2008:25) om årsredovisning i kreditinstitut och värdepappersbolag* (including amendments)), the Swedish Annual Accounts Act for Credit Institutions and Securities Companies (“ÅRKL”) and the recommendations of the Swedish Financial Reporting Board, RFR 1, Supplementary Accounting Rules for Groups were also applied.

The Issuer applies statutory IFRS, which means that the legal entity’s financial statements must apply the IFRS as a whole and the statements adopted by the European Union, in so far as this is possible within the framework of the Swedish Annual Accounts Act, the Swedish Pension Obligations Vesting Act after taking into account the relationship between accounting and taxation. Permissible exceptions and supplements to IFRS are stated in the Swedish Financial Reporting Board’s recommendation *RFR 2, Accounting for Legal Entities*, and ÅRKL as well as the Swedish FSA’s Regulations and General Guidelines for Annual Reports in Credit Institutions and Securities Companies (FFFS 2008:25).

The Issuer is further subject to the provisions set forth in the CRR as amended by CRR II, and in the Swedish Supervision of Credit Institutions and Investment Firms Act (*lagen (2014:968) om särskild tillsyn över kreditinstitut och värdepappersbolag*) and the Swedish Act on Capital Buffers (*lagen (2014:966) om kapitalbuffertar*) which implements CRD IV as amended by CRD V.
